It seems we caused a forest fire
With just a flicker of a flame
And now I set alight to everything
Now all I do is cause you pain

I won't keep secrets alive
I'll send them all out to space
Without the will to survive
They won't be going no place

Oh my angel
Woman child

I used to think the time would come
When man would rise above the beast
I gave up thinking that way long ago
In conversation with a priest

I won't keep secrets alive
I'll send them all out to space
Without the will to survive
They won't be going no place

Oh my angel
Woman child

We could have heal this blindness
With some human kindness
I know secrets kill you
But my love can fill you
Time and time again
Time and time again

It would be so fine
If you could be mine

I won't keep secrets alive
I'll send them all out to space
Without the will to survive
They won't be going no place

Oh my angel
Woman child
