We're wastin' time inside my mind  
The thought of her won't go away come every day  
We're just wasting time

We're wasting time, my clothes are fine  
Still fresh and clean  
Her sweet perfume in our old room  
We're just wasting time

With that face that I've seen  
Maybe thinks the same as me  
Well, nothing that we're learning  
While the hands keep turning

Girl, oh girl, can't you see?  
We're wasting time inside your mind  
The thought of him won't go away come every day  
We're just wasting time

We're wasting time inside your mind  
The thought of him won't go away come every day  
We're just wasting time

Oh, we're just wastin' time  
We're just wastin' time  
We're just wastin' our time  
Oh, we're just wastin' our time
