We're wastin time  
Inside my mind  
The thought her won't go away come every day  
We're just wasting time  
We're wasting time  
My clothes are fine  
Still fresh and clean  
Her sweet perfume in our old room  
We're just wasting time  
With that face that I've seen  
Maybe thinks the same as me  
Well nothing that we're learning  
While the hands keep turning  
Oh girl! Oh girl! Can't you see  
We're wasting time inside your mind  
The thought of him won't go away come every day

We're just wasting time  
Oh girl! Oh girl! Can't you see  
We're wasting time inside your mind  
The thought of him won't go away come every day  
We're just wasting time  
Oh wer're just wastin time  
We're just wastin time  
We're just wastin our time  
Oh we're just wastin our time, darling  
Don't you know we're wastin our time
