No doubt about it you hurt the ones you love  
So if you ask me how I am  
(That's if you care)  
I'm doing fine without you there

There's no question you knife those in the back  
Standing closest to you  
So if you care  
I'm doing okay with these bandages I wear

And so I breathe from the front  
But I can bleed from the back  
You say it's okay  
You say it's okay

You hurt the ones you love  
So I can say I love you

No crime committed with murder of the soul  
Oh it's so easy to hide it behind this affair  
Of small conversations that fill up the air

You hurt the ones you love  
So I can say I love you

You kill the ones you love  
So I can say I love you
