Sometimes  
You try hard but your efforts seem swallowed  
At the right time  
A talent shines and it fills this hollow  
Laugh when you're winning, smile when you're down

We've learned from this, I've learned from you  
I have won this already

Li la la li, li la la li  
We were strangers in life  
Li la la li, li la la li  
Now we're friends in strife  
Li la la li, li la la li  
Now please, no more cries  
Li la la li, li la la li  
Li la la li, la la la la la li li  
Li la la li, li la la li  
Li la la li, la la la la la li li  
La la la la la li li, la la la la la li li  
And as for the rest, I wish you all the best
