So what's it all about, I can't work you out
There's a chemistry between us getting hard to
disguise
Still you're holding back some kind of panic attack
Treading water when you really should be turning the
tide

Don't spend a lifetime waiting
Don't tell me no, just let go

If you want it, then you got it
Don't let this moment pass you by
Take a long shot, give it all you got
You'll never know unless you try
You can only sink or swim
Baby, just dive in

So, what's the worse thing that could be happening
You test the water and you find that it's a little too hot
But I'm imagining the taste of salt on your skin
Make your move, you gotta choose, are you ready or
not
Don't waste a lifetime waiting
You know it's now, so turn around

If you want it, then you got it
Don't let this moment pass you by
Take a long shot, give it all you got
You'll never know unless you try
You can only sink or swim
Baby, just dive in

Just dive in, just dive in
Just dive in, let's dive in
Into the blue, into the deep
Into the mood tonight, dive in

If you want it, then you got it
Don't let this moment pass you by
Baby don't stop, give it all you got
You'll never know unless you try
You can only sink or swim

Baby, just dive in

Dive in, baby just dive in

Just dive in

You can only sink or swim

Come with me, let's dive in
