You really got me babe  
You got me struck, I'm hit by lightening  
Got me strung out on a limb  
And I love to think I can't fight it

You rock like a hurricane  
I've been blown by an earthquake  
Got me feelin' funk' baby  
Jumpin' pumpin' lady crashing like a tidal wave

I'm thinking 'bout a greener kinda grass  
Take a trip to my side of the tracks  
I'll never lock you down or fence you round  
'Cause I feel you loud

And I love to love to love  
To love to love to love

You know I'd really hate to see you leave  
But I'd really love to watch you go  
So if you're thinking about grabbing your keys  
Then I think you better let me know

'Cause baby I've been reading your kiss  
And there ain't no fire without smoke  
When I see the way you throw those hips  
Then I know I gotta take you home, I gotta love you  
babe

'Cause I love to love to love  
To love to love to love

You really shook me babe  
Got me cooked and hooked like a junkie  
You're hot like a rock star  
I've been cocked and shot but I wannabe

You kiss like a butterfly, sting like a honey bee  
You got the seven wonders  
And I'm going under  
'Cause you throw me off my feet

Gotta have your number on my phone  
Can't have you going home alone  
I'll never lock you down or fence you round  
'Cause I feel you loud

And I love to love to love  
To love to love to love

You know I'd really hate to see you leave  
But I'd really love to watch you go  
So if you're thinking about grabbing your keys  
Then I think you better let me know

'Cause baby I've been reading your kiss  
And there ain't no fire without smoke  
When I see the way you throw those hips  
Then I know I gotta take you home, I gotta love you  
babe

'Cause I love to love to love  
To love to love to love

Thinking 'bout a greener kinda grass  
Take a trip to my side of the tracks  
I'll never lock you down or fence you round  
'Cause I feel you loud

And I love to love to love  
To love to love to love

You know I'd really hate to see you leave  
But I'd really love to watch you go  
So if you're thinking about grabbing your keys  
Then I think you better let me know

'Cause baby I've been reading your kiss  
And there ain't no fire without smoke  
When I see the way you throw those hips  
Then I know I gotta take you home, I gotta love you  
babe

'Cause I love to love to love  
To love to love to love  
'Cause I love to love to love  
To love to love to love
