Night time  
We're not alone if we dream together  
Of the good times  
We got through cos we won't surrender

Head on my shoulder  
Glass of red wine  
If we lift and look behind  
We have won this already

Li la li la  
I watched you reach for the sky  
Li la li la  
Chrysalis to butterfly

Sometimes  
You don't win gold, you don't win silver  
At the right time  
You'll find bronze makes you the winner  
Tears running freely  
Now dry from your cheek  
If you lift and look behind  
You have won this already  
Li la li la  
I watched you reach for the sky  
Li la li la  
Chrysalis to butterfly  
To butterfly  
Kiss your lips and watch you fly  
My butterfly  
Chrysalis to butterfly

It's bedtime  
Emotions chase us, our dreams will follow  
It's a good time  
For me to give you the strength I borrowed  
Sigh when I hold you, last drop of wine  
If you lift and look behind  
I have won this already
