Darius Danesh
"This Is My World"

The look on your face
It could never explain your heart
And the touch of my lips
It could never tell u my thoughts

And U want me to change
I can't get used to
All U want me to be
I just can't pretend
To be anyone else
Cuz it's not really me

This is my world
This is who I am
And I'm not gonna give up myself
To make your life better

She said
This is how it is
I got my own life to live
And U can either accept me
Or baby

And if it's love
That we share
Then we can withstand all
The obstacles that life brings forth
And I will receive you
For who U are who u were
And baby who U will be

But U want me to change
Girl I can't get used to
All U want me to be
And I just can't pretend
To be anyone else, oh
Cuz it's not really me

This is my world
This is who I am
And I'm not trying to give up myself

To make your life better, now

This is how it is
I got my own life to live
And U can either accept me
Or baby

This is my world
This is who i am
And I'm not trying to give up myself
To make your life better

She said
This is how
I got my own life to live
And U can either accept me
Or baby let me go

U said I promise you the stars
And I'm
Giving you all I can now
U said love is not enough
And I know
U will see
If your life turns around
In my heart there is room for u

It's me and my world
This is who i am
And I'm not trying to give up myself
To make your life better

She said
This is how
I got my life
And U can either accept me
Or baby

This is my world
Who I am
And I'm not trying to give up myself
To make your life better, now

Oh, this is how
And I got my life
And U can either accept me
Or baby let me go

This is my world
My world
Baby let me go

Oh, this is who I am
Where I live
Got my own life to give

Oh, oh oh
My world
I'm not trying to change u
This is who I am
Please let me be me, yeah
