That right - Nicco say,  
you know I say I wanna get to my Destination, I'm  
gonna find you there!

When I'm out on the streets of strolling  
I can look on the fields of flowing  
I can look from the mountainside  
And see your fire still burning with me

And I know (And I know)  
So I know (So I know)  
I know a place where we can go  
And green grass is growing

Baby I don't see you around  
(Even when the light out)  
But you know that my destination  
Is on this road going down  
'Cause I got to be with you now

[Chorus x2]

And on this road I am walking  
(Let me gonna find you)  
And I can feel that you're near  
(Sense that are telling me)  
And when I rease is my destination  
I know soon you'll be right here with me

[Chorus]

Baby I don't see you around

[Chorus 2x]

Even when the light out (x2)
