"Do It All Night"

Visit "[Do It All Night](#)" on MotoLyrics.com

You make me burning, yes I'm burning away
I like the vibe that you showing my way

You make me burning, yes I'm burning away
I like the vibe that you showing my way

I know you're not afraid of the truth, girl
I know you want them for show what to do

Baby we can do it, we can do it all night
Put your body right in to it and we do it alright
People singing, people dance until is sunlight
And we gonna do it all night
3x

And we gonna do it all night
And we gonna do it all night

Baby we can do it, we can do it all night
Put your body right in to it and we do it alright
People singing, people dance until is sunlight
And we gonna do it all night
And we gonna do it all night

My head is spinning, going round and round
The way your body movin' way in on down
So I'm running baby, runnÃ¬ng to you
Come show me what you do

Baby we can do it, we can do it all night
Put your body right in to it and we do it alright
People singing, people dance until is sunlight
And we gonna do it all night
2x
