Everyone beat  
Somethin's coming over me  
Cause when I think  
Just happy that we could be  
With every touch  
You make me feel alright  
Still can't believe  
I'm with you tonight

Come on feel that beats  
We can be together  
When you move your feets  
Baby it's now or never  
Make the night come fleets  
Love is like the message you send  
Girl I'll be with you until the end

Here comes the night  
Baby come on get along  
Here comes the night  
Dancin' to our favourite song  
Here comes the night  
Time to party all night long  
Nothin's gonna stop me (me, me, me...)  
Nothin's gonna stop me

Here comes the night  
Baby come on get along  
Here comes the night  
Dancin' to our favourite song  
Here comes the night  
Time to party all night long  
Nothin's gonna stop me

Here comes the night  
Baby come on get along  
Here comes the night  
Dancin' to our favourite song  
Here comes the night  
Time to party all night long  
Nothin's gonna stop me (me, me, me...)
