Yesterday it happens again!
The proof in my shorts, that I an a real man
My cock has a life of it's own
In the middle of the store, that's where it was shown

I asked where I could find the beer
She said: Follow me it's really near
My cock heard us talk, and he woke up
First my next thing my shorts would drop

I tripped, and I felt, he started to grow
He grabbed her ass really slow
With my balls he pinned me on the floor
So I couldn't forseen that he would score

Poor little girl didn't had a chance
Insider her ass my cock did his dance
Getting bigger going in, and out
I could see his head through her mouth

He smiled at me, and laughed real loud
He's gonna cum without a doubt

Yogurt falling on the floor
Her anus was filled up with gore
Last thing I've heard; Hallway 4 is a mess
