You've got the keys girl, I'm just a rider  
Gas it up and get us outta here  
Put the pedal down, I wanna fly girl  
Crank it up and catch another gear

Let's go to Vegas, hit California  
Or Carolina where the southern breeze blows

[Chorus:]

You can take me to the moon and back  
I can kick my boots off, relax in your Cadillac  
Baby take me anywhere you wanna go  
Just don't take me down Heartbreak Road no  
Don't take me down Heartbreak Road

Baby you had me, first time I saw you  
I said where you're going, take me there  
Oh girl I'm in now for the long haul  
You can pick the place, I don't care

[Repeat Chorus]

We can drive all night, we don't need no plans,  
remember that you've got my heart in your hands  
Let's go to Vegas, hit California  
Or Carolina where the southern breeze blows

You can take me to the moon and back  
I can kick off my boots and relax in your Cadillac  
You can take me anywhere you wanna go,  
Just don't take me down Heartbreak Road no

You can take me to the moon and back  
I can kick my boots off,  
just lay back in your daddy's Cadillac babe  
You can take me anywhere you wanna go  
Just don't take me down Heartbreak Road no  
Just don't take me down Heartbreak Road
