"Miss You"

Had a bottle of wine and a perfectly fine dinner
Talk about school, work, life and how cold it was last
winter.

Lay down in this big 'ole bed and you turned on the TV
Fell asleep without a goodnight kiss or even an I love
you
Baby, oh baby

How can we go on tonight and not even touch one
another?

How can we say we're still in love and not be lovers ?
How did we get here? Where you can be right there
And I can be with you and miss you?

I remember the time, when everytime you saw me you
had to kiss me
But lying here tonight
Girl that all just seems like ancient history Oh, what
happened baby?

How can we go one night and not even touch one
another?

How can we say we're still in love and not be lovers ?
How did we get here? Where you can be right there
And I can be with you and miss you?
Baby I still need you
