"True Believers"

Visit "[True Believers](#)" on [MotoLyrics.com](#)

Church bells ringing on our wedding day
Climbed in that limo and I rode away
Guess you'll always hear from people say
They're never gonna make it
We settled in and we settled down
In this quite little seaside town
You were the rock I built my world around
And life won't ever break it

We are one heartbeat in the darkness
We are one lasting answered prayer
We are one unbroken promise
We are two true believers

It wasn't easy getting here today
Some times you stumble or I lost my way
But every roadblock was a chance to say
Take my hand I'm here beside you
We worked and made it through the toughest parts
Now everyday's another chance to start
To look around and see that where we are
Is where we were trying to get to

We are one heartbeat in the darkness
We are one lasting answered prayer
We are one unbroken promise
We are two true believers

We are one before our God in heaven
We are one road when the going gets rough
We are one now and forever
We are one name, one life, one flame

We are one heartbeat in the darkness
We are one lasting answered prayer
We are one unbroken promise
We are two true believers

We are two true believers
