Walk with me
Break some bread here with me
Enemy
Why can't you live with me?
Who are you?
What did I do to you?
Wish I knew
Why can't I live with you?
We are all born the same
Then we separate
Then the world falls apart
And blame turns to hate
We must not contemplate
How far apart we are
There is always a way
To that place in your heart.
Hated one
Just put down your gun
Done is done
Why can't we live as one?
Feel no shame
The air we breath is the same
Heal the pain
Why do we live in vain?
We are all born the same
Then we separate
Then the world falls apart
And blame turns to hate
We must not contemplate
How far apart we are
There is always a way
To that place in your heart
No war!
