Do you remember what you wish for every Christmas?  
Do you say a prayer and send it on a star?  
Well maybe I'm just being over sentimental.  
But now its Christmas and I miss us most of all.

You know I never really took the time to thank you.  
I was almost thinking you were here to stay.  
Is it something in the air that gts me crazy?  
Cause now its Christmas but I miss us just the same.

When its cold, I get lonely,  
I can't talk, I can't walk, I can't breathe  
Then I dream and you hold me,  
And the angels are singing with me.  
I guess its Christmas when I miss us most of all.

So let the snow come down and drown out all my  
sorrows.  
Maybe I can dance again with you.  
And as the children sing I swear I heard you whisper,  
That now its Christmas but I miss us just the same.

When its cold, I get lonely,  
I can't talk, I can't walk, I can't breathe  
Then I dream and you hold me,  
And the angels are singing with me.  
I guess its Christmas when I miss us most of all.

I guess its Christmas when I miss us most of all.  
Cause now its Christmas and I miss us most of all.
