Standing here in front of you  
You never looked so beautiful  
With every breath you steal my words away  
It's like seeing you the first time  
Yeah that's the way I feel tonight  
In you I've found a place I wanna stay  
Wish I could freeze you in this moment like a  
photograph  
You're the life I always wanted but never dreamed I  
could have

It's so easy loving you  
To trust you with my heart  
There's nothing else I wanna do  
It's so easy loving you

With you I feel I could touch the sky  
I don't have to climb that high  
To see that you're the better part of me  
Wish I could freeze a moment and take you away  
To a place somewhere only we could be

It's so easy loving you  
To trust you with my heart  
There's nothing else I wanna do  
Just being next to you  
You're the final piece that fits  
You're the smile I can't resist  
For everything you brought me through and everything  
you'll ever do  
It's so easy loving you

I'm not searching or hoping for anything new  
There's nobody could love me the way that you do

It's so easy loving you  
To trust you with my heart  
There's nothing else I wanna do  
Just being next to you  
You're the final piece that fits  
You're the smile I can't resist

For everything you brought me through and everything  
you'll ever do  
It's so easy loving you

It's so easy loving you  
You make it easy loving you  
It's so easy loving you
