The moment our eyes met across the room
I fell for you
When you took my hand and you asked me to dance
That's when I knew

Bridge:

The music was playing as you pulled me near
What my heart was saying was perfectly clear

Chorus:

Just like in a fairy tale
We could fall in love
I would be your princess
You the king's son
Like romeo and juliet
A love that never fails
Let's take this magic moment
And live our fairy tale

Warriors and lovers, magicians and thieves
Could try to steal our dream
I would pay a king's ransom just to call you my own
You're all I want for me

Bridge:

Dreams that we wish for don't always come true
But that doesn't keep me from dreaming of you

Repeat chorus
