You wouldn't believe
So why did you run?
You couldn't deceive
So you ch-ch-ch-choked,
You ch-ch-ch-choked,
You choooooooked

Your scent was clean
Your eyes spoke differently
It's not your fault, you just needed to choke
You needed to choke
You just needed to choke

So don't miss me while you're losing sleep with another
line
Another lie
This isn't goodbye
Just make up your mind!

You woke up again with the sleep in your eyes
We're wondering why you looked hypnotized
Eyes can't lie, but your eyes did lie
Cigarettes all over the ground, a smiling frown
Oh, you let yourself win
You let yourself lose
Which one will you choose?

So don't miss me while you're losing sleep with another
line
Another lie
This isn't goodbye
So don't miss me while you're losing sleep
Another line
Another lie
Another lie!

So take your ashes and your doubt
Don't expect the easy way out

You thought that we were so naïve
You wore your heart right on your sleeve

Maybe after this, you'll finally breathe
