This hate goes back
To the roots of mankind
But no one knows
Why it stays alive
This anger inside
Sick people's minds
So many victims
Are already dead
The rage grows stronger
When I see the pictures in the news
I cannot understand
Why no one stops these cruelties
They fight the wrong way
For their political view
And if you're a stranger
They'll also hate you
This anger inside
Sick people's minds
So many victims
Are already dead
The rage grows stronger
When I see the pictures in the news
I cannot understand
Why no one stops these cruelties
Brainsickness
They celebrate death
On all the streets of this world
Together they're strong
Alone they've lost
This anger inside
Sick people's minds
So many victims
Are already dead
