Life passes, as I am mortal  
Time is not left eternally  
Your erotic spirit and entire beauty  
Makes my self believing in an ungod

Doom Like Lady  
Doom Like Lady -  
I need you

I can't express myself  
Can't make the people see and believe in me  
And then I dream of you and begin to see  
That life is not worth human brutality

Doom Like Lady  
Doom Like Lady -  
I need you

In my soul I feel an eternal ache  
When will we finally awake?
