Memory

Fading from the mind like a melody  
Tangled in the reverie of time  
It's so hard to say goodbye

And endlessly

Talking to the angels of your heart  
Dancing with the demons of regret  
It's so hard to let you go

Paint a picture in my mind

A life I had but left behind  
Baby when you call my name will you still care

Tenderly

Slip away to find a better place  
Just flying flying flown away from home  
Now you stand alone  
Now you stand alone
