I-I-I wish that we were married  
So wed never, never, never, never say Goodbye  
I'm glad were going steady  
But I wish the time would fly

I wish that we were married  
And I know you wish it, too  
Cause when I have to leave you  
We both feel so lonely and blue

Two kids can know what love is  
They can cry all through the night  
Yes, we know  
We know how it feels to be lonely  
To cry, cry, crysobs

I know, I know wed be so happy  
If we never, never, never, never have to part  
I wish that we were married  
Yes, I wish it with all my heart

I know, I know wed be so happy  
If we never, never, never, never have to part  
I wish that we were married  
Yes, I wish it with all my heart
