Her name is Jamie  
Do you know what that means to me?  
It means I can be  
Happy Â'Ever AfterÂ' with her  
Happy Ever After right here.

But it seems like lately  
IÂ've been working hard at something distant  
And sheÂ's feeling indifferent and hurt  
SheÂ's feeling lack of interest in her

And I know there is something  
To this whispering in your walls  
All the things you said live with me  
All the things you say live with me  
And when I think of memories past  
YouÂ're present in them all  
All your memories live with me  
All your memories live

Jamie Lease,  
YouÂ've cast your spell on me  
So I canÂ't breath without you  
I canÂ't be without you  
Honestly,  
How could you not believe  
In all that weÂ've put into  
These things that I could never have without you.

I know I can make this all right  
But I donÂ't want to be right  
Because IÂ'm alone tonight  
And I think I like the way that sounds  
I think I like the way that soundsÂ...  
And I know you can make this all right  
But you donÂ't want to be right  
Because you were born to fight  
And I think I hate the way that sounds  
I think I hate itÂ... I know I hate it.
