

## Ronnie Day "Not The Same"

Visit "[Not The Same](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Its been years now  
And it's clear now  
That this feelings more then letting go  
IÂ'm not quite complete without you  
You dissolved me,  
Unresolved I see no point in turning back again  
Cause I know just what will happen

I wish you would stay tonight  
I wish you would come back to haunt me  
I wish you could try  
I wish you could try  
I wish you would hold me tight  
Your arms wont take me for granted  
Take back "goodbye"  
Take back "goodbye"

I donÂ't want to think about you  
But I donÂ't want to go without you  
And I know that you will never leave my mind  
Cause girls like you are the lasting kind  
And I donÂ't want to be this lonely  
But I donÂ't let these new girls know me  
Cause I know that I left my best with you  
Yeah, you know it's true  
Yeah, you know it's true, yeah

I know that you think about me  
Well I think about you too  
And I know that you dream about me  
Well I dream about you too

I wish you would stay tonight  
I wish you would come back to haunt me  
I wish you could try  
I wish you could try  
I wish you would hold me tight  
Your arms wont take me for granted  
Take back "goodbye"  
Take bake "goodbye"

I donÂ't want to think about you

But I don't want to go without you  
And I know that you will never leave my mind.  
Cause girls like you are the lasting kind  
And I don't want to be this lonely  
But I don't let these new girls know me  
Cause I know that I left my best with you  
Yeah, you know it's true  
Yeah, you know it's true, yeah

I don't want to think about you  
But I don't want to go without you  
And I know that you will never leave my mind..  
Cause girls like you are..

Its been years now  
And it's clear now  
That this feelings more then letting go  
I'm not quite complete without you  
You dissolved me,  
Unresolved I see no point in turning back again  
Cause I know just what will happen (x2)

[I know me you know me It'd be wrong now to  
Leave  
I love you You love me It'd be wrong Now to leave]
