Some time, some time
Some time

Maybe in some life before
We walked the street
We closed that door

Cause I know some time
Yes, in some time
In some time, you were mine

Maybe when the world was new
I made the moon just for you
Cause I know some time
Yes, in some time
In some time, you were mine

I couldn't feel for you the way I do
If I had not loved you before
I wouldn't want you so and need you so
And never want to let you go
If I had not loved you before

Maybe in some other land
Our shadows touched and love began
Cause I know some time
Yes, in some time
In some time, you were mine

Maybe in some other land
Our shadows touched and love began
Cause I know some time
Yes, in some time
In some time, you were mine
