All mental poison  
Comes in many hundred different ways  
But instead of searching  
I am better off without the prayer's days

Myself heretic, I have chosen not to know it all  
Myself heretic, but I know my call  
Myself heretic, I know my place and chose to be  
Myself heretic, I'd rather die than lie to me

I am asking you if you have seen it all  
Have proven this world to be divine  
And I am glad, that for you a kingdom shines  
And that you believe in signs

This is myself heretic
