#### Verse 1:

Sun comes up, tide goes out, a new day begins  
Palm trees sway, as children play, in the sand  
Seagulls fly, across the sky, two by two  
Another perfect day for missin' you

#### Chorus:

I don't see know hope on the horizon  
I can't feel no changes in the wind  
And even though it is the only thing, that I have to do  
Another perfect day for missin' you

#### Verse 2:

Pretty girls, golden tans, passin' by  
I just see, your auburn hair, and emerald eyes  
But I can't complain, it never rains, it's always blue  
Another perfect day for missin' you

#### (Chorus)

And even though it is the only thing, that I have to do  
Another perfect day for missin' you
