Give me a choice between pleasure and pain  
I choose pain

Another day without a heartbeat  
How can your heart beat  
If they've taken it away  
For the first time, just don't think about it  
Take the water and wash your face with pain

You can take away the power  
Your finest hour  
It's when you laugh in their faces  
For the first time just forget about it  
Take a hammer and pound yourself with pain

Ooh

Bury my bones on the moon  
If they never should find me it would be too soon  
Give me a choice between power and pain  
I choose pain

Oh, bury my bones on moon  
If they never should find me it would be too soon  
For the first time just forget about  
Take the water and wash your face with pain  
Pain  
Oh just forget about pain  
Forget about the pain  
Pain, pain, pain, pain, pain!
