Season's of your love is what I'm thinkin' of
The life is spice, it's all around you, baby
Ooh, your charms like sweet, sweetheart
With your style there's no way to be lonely
Even when you're kinda misbehavin'
You leave on me a long and lastin' cravin' for

City girl
Let me show you the light and hold you tonight
City girl
Let me show you the light and hold you tonight
City girl
Let me show you the light and hold you tonight

You are so alive, I love those diamond eyes
I want your mind, it's automatic thinkin'
Everywhere, the classiest places
You walk in, turnin' all the faces
Work of art, you know just who you are
But in my heart
That's why I'm always thinkin' of you

City girl
Let me show you the light and hold you tonight
City girl
Let me show you the light and hold you tonight

City girl
Let me show you the light, hold you tonight
City girl
Let me show you the light, hold you tonight
City girl
Let me show you the light, hold you tonight
City girl
Let me show you the light, hold you tonight
