As we walk through the valley of transparent souls  
We have to find the knowledge of sin  
So we will fear the light as the darkness  
Hate lies beyond the fall of any angels  
Search the lies  
In the insane sanity  
And try to invent hope for  
Those who have denied  
Never seen  
Never touched the wisdom of pure pain  
Look into the anguish of faith  
And see the helpless face of reality  
Take a look and see the time forever  
Through endless sorrow we have to wander  
Drift around in a chaos of regret  
We're being slain in the true circles of hell  
Search the lies  
In the insane sanity  
And try to invent hope for  
Those who have denied  
Never seen  
Never touched the wisdom of pure pain  
Don't compare your souls to mine  
Use your dark powers from deep inside

[1st lead: Ideberg]

[2nd lead: Malmstrom]

Let the hate guide our minds to total control  
A world full of souls  
That have failed to complete their dreams  
Anxiety, the breeding of deranged erudition  
Search the lies  
In the insane sanity  
And try to invent hope for  
Those who have denied  
Never seen  
Never touched the wisdom of pure pain  
The eternal battle between good and evil  
Saint and sinner
