A it ravel deep down below further and further  
Until reach the bottom of this endless well  
Memories that never existed and words never spoken  
Not recognizing what should be the essence of being

Confronting what's not supposed to surface  
Nowhere to reside but the outer borders of this lost  
mind  
Responsible for things that was not meant to be  
Knowing that the material world is nothing but a  
charade

On broken wings I travel  
Searching resistance  
A fragile trip to the unknown  
Leaving existence

In a split second the so-called life changes  
dramatically  
A wrong turn straight to the deepest pits of hell  
Buried in a fragile shelter soon to fall apart  
How easy to forget where the limits form compassion  
are

Travel somewhere else and maybe just maybe  
There is guidance for a soul set to break apart?  
A life depraved the ultimate sacrifice  
A price higher than life itself

On broken wings I travel  
Searching resistance  
A fragile trip to the unknown  
Leaving existence

[Lead: Malmström]

Lost in a delusive world  
This is where it all ends

[Lead: Malmström]  
[Lead: Ideberg]

Confronting what's not supposed to surface  
Nowhere to reside but the outer borders of this lost  
mind  
Responsible for things that was not meant to be  
Knowing that the material world is nothing but a  
charade

On broken wings I travel  
Searching resistance  
A fragile trip to the unknown  
Leaving existence
