[lead: malmstrom]

Push the boundaries of suffering  
The mind is a bottomless pit of evil desires  
Designs of endless punishment  
Mental suffering intentionally inflicted  
For the purpose of coercing  
Torture is the devastating instrument of power

Strain of cruelty  
Marked by this horrid experience  
Strain of cruelty  
Profound malevolence

Multidimensional suffering  
Leaves no part of life untouched

Waiting for someone to fall, submission  
Waiting for someone to fall

Pain, the malignant tangible reminder  
Of the trauma suffered

Waiting for someone to fall, submission  
Waiting for someone to fall

[1st lead: ideberg - 2nd lead: malmstrom]

Recurrent nightmares creating chronic anxiety  
Post traumatic stress disorder  
The psychological result of this experiment  
Break the spirit of dissident people  
Punish those who already are beaten down  
Torture is the devastating instrument of power

Strain of cruelty  
Marked by this horrid experience  
Strain of cruelty  
Profound malevolence
