She was mine only yesterday
Both our hearts beat as one
But then I felt her slip away
As a cloud stole the sun

Chorus

And the he-e-e-avens cri-i-i-ied
And the tears filled the stre-e-e-am
And the stream filled the river
The river filled the sea
All because, she took her love
Away from me-e-e-e-e

Though each dawn brings the sun again
Yesterday will remain
Every day I'll remember when
All the clouds filled with rain

Repeat chorus
