Ronnie Wood
"I Got Lost When I Found You"

I got lost when I found you
Chained and bound and loving it too
Change [Incomprehensible] is what made that stormy
day
You change my ways

Now my love is all about give and take
It's all about accepting what you need out of life
So you pay the price, if the price is right

You need me just as bad as I need you
We both playing games, but who's fooling whom?
Breaking up and starting all over again
Is a waste of time if we're gonna hold our feelings in

It's all about accepting what you need
What you need out of life
So you pay the price, if the price is right
It's all about accepting what you need
What you need out of life, what you need
So you give a little for what you like, what you like

Fall down, accepting what you need out of life
So you give in a little for what you like
It's all about accepting what you need out of life
What you need, if you dare
How you do it, you'll do it right

I got lost when I found you
You found the dream I was going to
Since I got lost, you were lost too
Since I got hurt, you were hurt too
Yeah I got lost when I found you
Yeah I got lost when I found you
