I'm going out
Don't wait for me
Don't bother calling my friends
They won't know where I've been
I hear a voice
It's calling me
I gotta go (now)
I gotta see

I'm going away from here
I miss the good times
Loving You, loving me
Don't know where I'm going
Something is calling me
Oh yeah
I gotta go

I gotta see

I may just walk, with this time
Slow like an eagle, wings open wide
It's been a pleasure, thanks for the ride
Destiny is waiting on the other side

I got the devil in a bag next to me
I got some clarity now I can see
It was never you
It was all about me
I gotta go
I gotta see

What's on the other side
Waiting for me...
