The story so far, the story never find the end
I aint your enemy, the story goes to the end
His blue eyes doesn't telling any lies, the kid wont
telling you the lies
The sheriff asked "who's the man?" they said "who
fucking cares!"

My momma said "don't shoot the man!"
Billy just keep your gun away!
"oh momma, let me kill the man!" "oh billy keep your
gun away!"
"oh momma, I'm your hero, stay inside on your
window"
"oh billy keep your gun away"..
The sheriff will kill you...

The sheriff will kill you...

Hey man, stop it right there
Just let my momma go away

Hey man, stop it hold it right there
Or today will be your nightmare

Let her go or I kill you
Me and you ready for battle
Guns in the air then start the fire
Me and you lets start the fire

Hey man, stop it right there
Just let my momma go away

Hey man, stop it hold it right there
Or today will be your nightmare

WO' O

Just let her go!

Yeah
Hey man it's between me and you
Just me and you

Start the fire...
Ooh yeah

The story so far, the story never find the end
I aint your enemy, the story goes to the end
His blue eyes doesn't telling any lies, the kid wont
telling you the lies
