So drive the heat link to the heartbeat
The motivation possessed the contradiction
Desire get so exciting
The blood pressure keep on pumping
Feel so insecure self denial
Burning up the brain you know it's trial
Automatic not too dramatic
It's obvious my nerves it's getting sick

So come with me now
Let us bang this world
So follow me
Let us rock this world

My obsession it's getting loco
The impatient taste shut my modjo
Edge of fantasy man it's so deeply
The appetite lost in fiction
But then the sound keep encourage me
My body froze up turn to numb
What the hell is wrong with me
Damn you vicious
But you so rock

Come with me
Let us rock this world
So follow me
Let us bang this world

I want you to come with me
Stay beside me
Let us rock this world

Come... come with me
Let us rock this world
Oh follow me
Let us rock this world

So come with me now
Let us bang this world
So follow me
Let us rock this world

Bang your head
And come with me
Come with me
So follow me
Let we bang this world
