# "Complicated Identity"

Visit "[Complicated Identity](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's time...

It's time to decide, when the foot step on the wrong side

Too much...

Too much a sickness, affecting your self condition

Advice...

Is useless, everything has changed into a weakness

Strongest protection, been gone away slightly disappear

Do you want me to lift you... why?

Or should I drop you... what?

The dangerous had been drove to your fuckin brain

You will know

It's too complicated...

Soon you will know

Realize don't let go

Define yourself

Maintain yourself

Define yourself

Maintain yourself

Refuse the hopeless infection beyond the decency

Better off without addiction had move on in the straightly fast lane

You have to... decided

The time is... divided

Accept the goodness, will affect to your respectful life

Keep walkin straight up

Don't reject the goodness of your life

I know it's complicated, stay awake, be aware

Don't follow your emotion, it will take so many questions

Rearranged...

Reawake...

The goodthings will come...

You will know

Hope you know

Your emotion

You will know

Hope you know  
There's no criticize if care to realize  
Be as strong  
Be yourself

Keep walkin straight up  
Don't reject the goodness of your life  
I know it's complicated, stay awake, be aware  
Don't follow your emotion, it will take so many  
questions  
Rearranged...  
Reawake...  
The goodthings will come...

Keep walking straight up  
Don't reject the goodness of your life  
I know it's complicated  
There's no criticize if care to realize  
Keep walking straight up  
Stay awake be aware rearrange  
I know it's complicated  
Be your self...
