Visit "[No One Cares](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We gotta pay attention  
To our struggling nation  
To people don't know when  
The poverty will end

Home are being destroyed  
People are left to die  
Nobody's annoyed except for them and I

The nation getting bigger  
The people are increasing  
Nobody's caring about the deceasing

No one cares about them  
No one knows where the're go  
We gotta do something  
Before there is nothing

No one cares about them  
No one knows where the're go  
We gotta make it difference  
Just open your fuckin eyes

There's no honesty again  
In our government  
The leaders in corruption  
It's only bring destruction

We are being misleading  
While others our being hated  
Only god will decided who live and dies

I'm so sick and tire of lies  
We gotta stop the lies  
Or we will gonna fuckin dies

No one cares about them  
No one knows where the're go  
We gotta make it difference  
Just open your fuckin eyes

Wheres all the life, I can't deny, there's no life

Everytime I see them there, do you even start to care,  
do you their standing there  
Wheres all the life, I can't deny, there's no life  
Everytime I see them there, do you even start to care,  
do you think that is fair  
Wheres all the life, I can't deny, there's no life  
Everytime you see them crying, do you even care their  
dying, do you even give a damn?

Fuck all of your bullshit

Wheres all the life, I can't deny, there's no life  
Everytime I see them there, do you even start to care,  
do you their standing there  
Wheres all the life, I can't deny, there's no life  
Everytime I see them there, do you even start to care,  
do you think that is fair  
Wheres all the life, I can't deny, there's no life  
Everytime you see them crying, do you even care their  
dying, do you even give a damn?
