"Music And You"

Visit "[Music And You](#)" on MotoLyrics.com

When I look into your eyes
I realise
That the music in you
Makes me feel brand new

When I look into your eyes
I realise
That the music in you
Brings us closer together

Its just music and you
Its just music and me
Its just music (x4)

Its just music and you
Its just music and me
Its just music (x12)

When I look into your eyes
I realise
That the music in you
Brings us closer together

Its just music and you
Its just music and me
Its just music (x4)

Brings us closer together

Its just music and you
Its just music and me
Its just music (x4)

Its just music and you
Its just music and me
Its just music (x4)
