I don't think you know  
I've never been that low  
When I was on your show  
feeling good wasn't good enough  
And love was chemical

Flawless ironed man  
Stainless future plans  
I wasn't in your diagram  
Couldn't get my numbers through  
I was a number to you

Business card business card  
You broke my heart

Your name black on white  
Sharp graphic on the side  
Capitals classic, tight  
I should have known better  
I'm more the italic kind

Business card business card  
You broke my heart  
Business card business card  
You broke my heart

Your card was meant for  
inside trading, fitness, brokers and meetings  
I wasn't part of your economy  
I know  
singing in a band  
is a bad investment
