

Room Eleven "Not Jealous"

Visit "[Not Jealous](#)" on MotoLyrics.com

Blue light is flickering
From a very big stage
The longer we watch it
The worse it gets

My voice is broken
And your back is sore
Two sad faces
Watching the kids scream for more

No we're not jealous
We can perfectly well do without
No we're not jealous
'Cause you are my personal crowd

We're not in line
And our shoes still shine
Oh it isn't very easy
But we'll survive

No we're not jealous
We can perfectly well do without
No we're not jealous
'Cause you are my personal crowd
