While the rain washed away heavy days  
I realized I was using your toothpaste  
Drums on the roof  
Ring in another tune, this one's too smooth

Mirrors growl at me  
Time is a monster that's eating me slowly  
Waits until I'm alone  
To chew on my bones

There's a page on the floor  
you can't fool me no more  
That's our song on the floor  
I can't sing it no more

The phone is the singer  
stealing the show  
tells me what I'll be missing  
But what does she know?  
Do I know?

I know the real score  
You can't fool me no more  
I know the real score  
You can't fool me no more  
That's our song on the floor  
I can't hear it no more

I can't stay here  
I'm done done for  
I won't start a war  
I left a note on the door  
Waiting for  
The next show
