She doesn't have the answer yet
The answer yet
I'm breathing down her neck
Maybe I should give her time

If it were up to me, she would know that
She'll be the one when I'm dead will use my bed
And she'll spend her life thinking of us and making a
fuss
If it were up to me, she would know that

Our love
(Our love)
Is the best love
(Best love)
If it were up to me

Yes, our love
(Our love)
Is real love
So just let it be

I want you to know
I've done our charts and it says that we work as one
Like the Jackson 5 and the temptations
If it were up to me and she would know that

Our love
(Our love)
Is the best love
(Best love)
If it were up to me

Yes, our love
(Our love)
Is real love
So just let it be

Well, your Mother likes my smile
And your Father likes my lifestyle
Should I ask them what I asked you
To get the answer, yes, to get the answer

It's easy
(Easy)
It's easy
(Easy)
It's easy
(Easy)
Oh it's easy
Oh oh so

'Cause your Mother likes my smile
And your Father he likes my lifestyle
Should I ask them what I asked you
To get the answer, yes, to get the answer

'Cause our love
(Our love)
Is the best love
(Best love)
If it were up to me

Yes, our love
(Our love)
Oh, is real love
So just let it be

Its easy
(Easy)
Its easy
(Easy)
Oh it's easy
