I could have the tallest building
I could have my face everywhere
I could have a helicopter
With my name written on the side

How'd you know?
I've got this feeling
How'd you know?
I can't explain it
How'd you know?
I've got the juice
I've got it all
But I don't have you
I don't have you (x muchos)
'Cuz I don?t want to

I could have a swimming pool
I could have a waterslide
I could have a bowling alley
But I don't need no bumper lanes

How'd you know?
I've got this feeling
How'd you know?
I can't explain it
How'd you know?
I've got the juice
I've got it all
But I don't have you
I don't have you (x muchos)
'Cuz I don?t want to

I'll take you on my battleship
To where your family lives
You wear nothing but the finest clothes
I see you made it big

I will be loved easily
I'll make you realize
That I'm the best man for you
I'm not your valentine

All this can be done
If I had the juice
Get down, you know I'm right
Turn around and dry your eyes
Your eyes

I could have my own country
I could have my own fast-food chain
I could know the famous people
And I could throw the wildest parties

How'd you know?
I've got this feeling
How'd you know?
I can't explain it
How'd you know?
I've got the juice
I've got it all
But I don't have you
I don't have you (x muchos)
'Cuz I don't want to
You-oo-hoo-hoo

How do you know?
How could you know?
How do you know?
How could you know?
