i broke another string today
it happens every time i play
some would say the lyrics are all that matter
you need to learn, need to learn
i broke another string today
they're just so damn weak
like the songs i write
some would say the lyrics are all that matter
you need to learn
that the music sounds better without words
yes the music sounds better without words
today i found something to write about
a writing power
la dee da dee

we likes to bawdy
we don't cause trouble
we don't bother nobody
some would say the lyrics are all that matter
well i disagree, yes i disagree
that the music sounds better without words
