My baby don't have to worry, she don't have to rob and steal

My baby don't have to worry, she don't have to rob and steal

I give her everything she needs, I am her driving wheel

She left me this morning, she said she would be back soon

She left me this morning, she said she would be back soon

She'll be back early Friday morning, either Saturday in the afternoon

Everytime she walks, she shake like a leaf trembling on a tree

Everytime she walks, she shake like a leaf trembling on a tree

She said come home daddy, here's where you get steak, potatoes and tea
